16 December 1958

MEMORANDUM FOR THE RECORD

SUBJECT: ELINT Training Committee

1. At a meeting of the ELINT Training Committee it was determined that the concept of the program would be presented to the ELINT Activities Committee 17 December. Individual offices presented the approximate number of people who would be trained. However, I believe it should be termed a "guesstimate" rather than an estimate. The figures were 90 to 100 for detailed technical training and 150 to 175 for orientation programs. In addition, external training at various universities may be desired for a small number of people.
2. It is proposed that the requirements be made more realistic prior to presentation to the DDCI for approval. The requested briefing for the DTR and the DD/S will probably precede the presentation of the paper to General Cabell.
3. One of the specific requirements in the near future will probably be the assignment of an individual from the Office of Training to work with the committee on the establishment of courses, the discussion of schedules, liaison with external activities, and handling the detail necessary when new courses are established.
